EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth A. Nelson on 20 December 2005.

The application has been amended as follows:

Claims 18-21 were canceled.

The title was changed to: Hydraulic Cement Mixer

2. Applicant should submit more-formal drawings having uniform line quality and free of stray marks (copy machine marks).

3. The following is an examiner's statement of reasons for allowance: The closest prior art is Lendved (US 3,080,152). Lendved (US 3,080,152) discloses a hydraulic concrete mixer comprising a drum (1) having a mixing blade (9) attached to an interior thereof; a frame (2) supporting the drum; an engine (6) mounted on the frame; and a drive train extending through at least a portion of the drum (see Fig. 3), the drive train comprising a hydraulic motor (within hydraulic motor housing 37); a first plate (40)

between the hydraulic motor and the drum; a second plate (46) inside the drum and a first shaft (41) having a passage (49) extending between the ends of the shaft. Fig. 3 also appears to depict a second shaft threaded into shaft (41). However, it is not the case that the first and second plates are "coupled ... such that a portion of the drum is held between and in first relationship to the first rigid plate and the second rigid plate" as required by independent claim 1. Instead, the drum (1) and the second plate (46) rotate relative to the first plate (40).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
